The Wright-Fisher process is wrong!

Question: what's missing w/ WFF model?

Universality

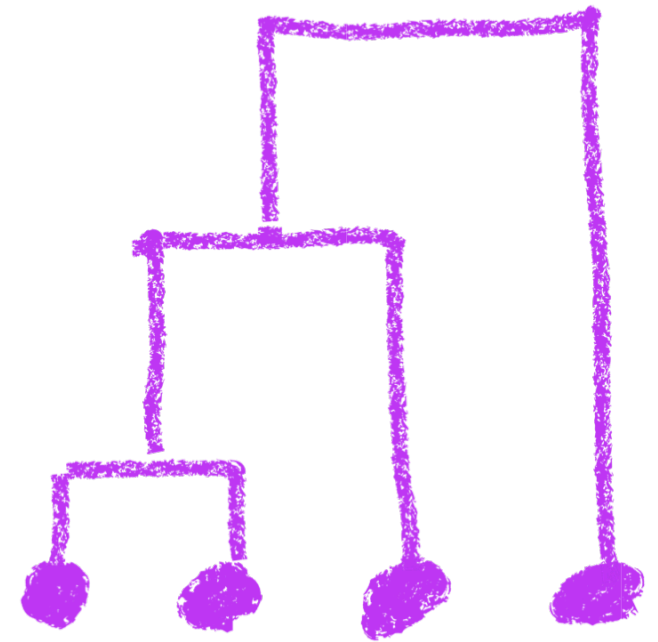

$$PV = nRT$$

Oh no, where
are the molecules?

It turns out...

Universe of models
(WF just one)

The coalescent limit

Problem

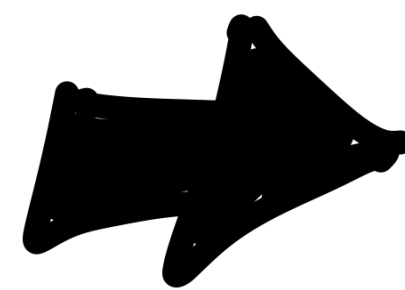

The Wright-Fisher process is wrong!

Question: what's missing w/ WF model?

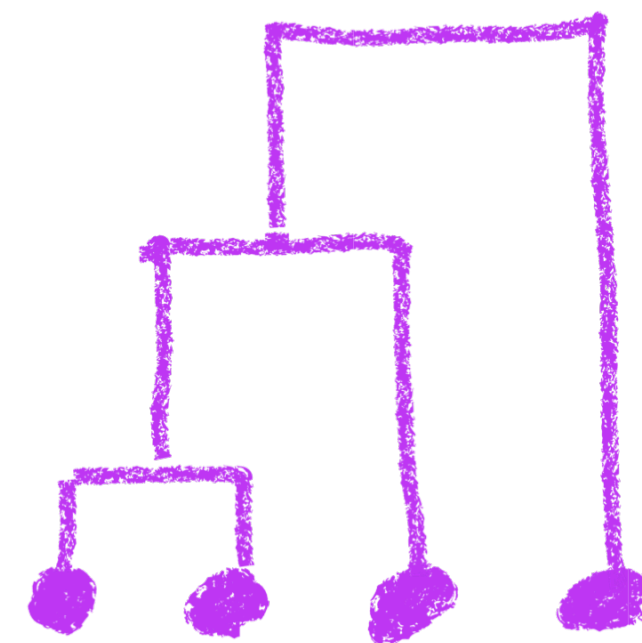

It turns out...

Universe of models
(WF just one)

big N

The coalescent limit

Universality
 $PV = nRT$

Oh no, where
are the molecules?

Cole-escent theory

Inspired by GS 551 with Cole Trapnell

- 20 students in a class, numbered $1, 2, \dots, 20$
- Each day of class, professor rolls 20-sided die to choose a student to call on
